LOGO CONCEPT – HOUZS CENTURY

The Houzs Century logo is a minimalist, geometric mark that balances structural stability with modern lifestyle design. It serves as a visual promise of durability and premium craftsmanship.

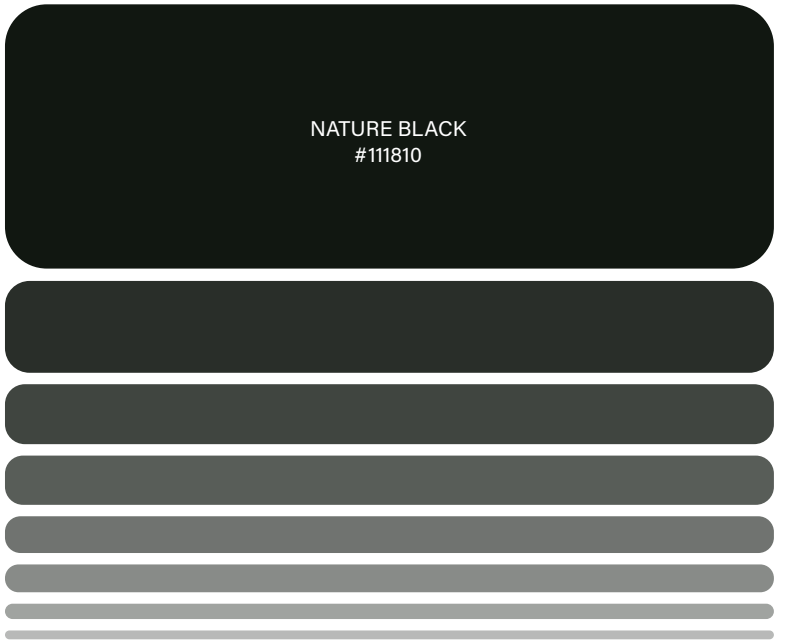

- The Symbol: A house silhouette featuring a negative-space "H" and pillar-like bars, representing architectural stability and the foundation of a home.
- The Typography: A bold, reliable typeface featuring a four-dot grid in place of the "O," symbolizing technical precision, modularity, and internal craftsmanship.
- The Essence: A clean, high-contrast design that communicates "Affordable Luxury" and long-lasting quality.

COLOR PALETTE CONCEPT

The Houzs Century palette is anchored by Nature Black (#111810), a deep, organic charcoal with a subtle forest undertone. This color choice transitions the brand from "industrial manufacturing" to "organic luxury," reflecting a commitment to natural materials and home tranquility.
